Fish Stocking

We have fish stocking also available.

An improper balance of aquatic vegetation interferes with man's ability to appreciate and enjoy water, as well as nature's

Remember Service starts in April, but if you see any blooms of algae before then please call

Just a quick note before the season starts .

1. I have received some calls due to the warn weather we had last week and some have reported algae already. Some customers are deciding to start in March.
2. We look to be getting some much needed rain in the next week. Again look for some blooms due to run off in the ponds.
3. You could see me around the ponds in March as I will be doing some treatments for some invasive weeds early.
4. Look for a newsletter in the middle of

ability to support a diversity of wetland habitats. Exotic aquatic weeds are biologically polluting our valuable wetlands. These invasive plants also interfere wildlife nesting, fish populations, and property values.

PondsRx provides an answer to these problems!!

March explaining a new service report with some very cool features!

Sincerely,
John Turner
