

Ponds RX OK Newsletter

"Your Pond's Best Friend"

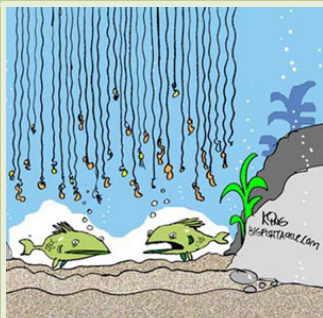

Greetings!

You are receiving this newsletter because you have Ponds Rx for pond and lake management services or there has been contact about your body of water!- Thank you!

"Our Pond Runneth Over!!

Could the worst drought since 1895 be over? After this week's rains, I drove to one of my accounts, 12 acres, three ponds, which had gone dry! The rains had filled two and the other was 3/4 full! So for those of you who are still short on water...have faith! It will come soon!

"All this fake bait has made me hungry. Let's go get a bite to eat."

Fish Facts

Little things to talk about at dinner

*Over 90% of all fish caught are caught in the northern hemisphere.

*Fish don't have ears. They hear or feel vibrations along the lateral line of their bodies

*In saltwater, fish drink constantly and rarely urinate. In fresh water, fish rarely drink and urinate constantly. This maintains the salt balance in their bodies.

*These are real state laws, In Texas it is illegal to have sex with a fish, in Florida it is illegal to get a fish drunk, and N.Carolina both are illegal, so in NC it is illegal to have sex with a drunk fish

*Oklahoma has more freshwater shoreline than Michigan, the 2nd place state. Oklahoma has approximately 55,646 miles of shoreline along lakes and ponds and Oklahoma has approximately 167,600 miles of rivers/streams for a total of 223,246 miles of total freshwater shoreline.. more than east coast and gulf combined...

*In space, no one can hear you fish

Request from you the Customer about off season dye treatment

"Hi John, thanks for your work on our pond, it looks great...problem is the 5 months that you are not here, we don't have that pretty pond color. Can you come put dye in it?"

Problem solved:

For you that want your pond dyed in the 5 off-season months, we are offering a inexpensive dye service. A pond needs new dye about every 40 to 60 days unless we get rain, about 2 to 3 times between now and April 1st.

So we will come put dye in your pond if requested!

- Up to 1st acre will be \$40 and only \$30 for every acre after that on that pond/account!
- If we get a wash out rain 15 days after the day we treat we will re-dye the ponds for free!

It's that simple. Just email me back at ponds_rx@cox.net and let us know if you want us to dye in the off season. We will send invoices at the end of the month!

PS. For you that don't like the blue color we can get black dye also, which has a very nice look.
